Sorority chapter hears Dr. Weatherly

Dr. Mark Weatherly spoke on "Life After Death" to the Delta Zeta Chapter of Beta Sigma Phi on March 4, 1980 at the home of June Page.

Dr. Weatherly, who is also a para psychologist, explained how we enter this dimension of life and the purpose for which we are sent.

He described the process of "dying", that it is actually rebirth, and how we enter the first astral level of discarnate life.

The professor discussed hell, the various levels of heaven, and how different people are affected upon entrance depending on how they "died".

He explained so called ghosts and why we sometimes see one.

The reason for animals having souls was another very interesting item.

Dr. Weatherly gave a general description of the many facets of everyday life on the other side.

A confirmed believer in reincarnation, he explained its purpose and logic.

Lastly, he explained that anyone wishing to contact a loved one on the other side can surely do so, informing his audience precisely where and how this can be done.

A question and answer period followed during which Dr. Weatherly answered numerous interesting questions.
